25X1X6 SHANTUNG

Tsinan - 24 January

5. The Nationalist 12 Army is south of Lai-wu (117-39, 36-15) fighting in the mountains.

The Communists have inaugurated a "scorched earth" policy, causing a difficult supply problem for the Nationalists.

25X1X6

6. Supplies for the 12 Army go by rail to Ho-shan (117-51, 36-32) and are then transported by foot, as roads are impassable to wheeled traffic. Because the Communists took all local inhabitants with them as they retreated southward, troops of the 12 Army had to carry their own supplies.
